Dear Students

It is well known now that Nursing is a rewarding yet challenging career both in Nepal and abroad. To be a staff nurse today, one has to appear in the entrance examinations conducted by various institutions. Keeping this in mind, The INTEL course is carefully designed for the ambitious and young Nepalese women who wish to join this noble profession.

To succeed in these nursing entrance examinations you need special preparation. The Staff Nurse Entrance Preparation at INTEL is conducted by a team of highly qualified and experienced Lecturers, Nurses and Doctors. At INTEL, we discuss the question patterns, answer methodology, and many other tips to enhance the test-taking skills of our students. We focus on all major prescribed subjects viz. Health, English, Maths, and Science. The INTEL question materials are based on the questions frequently asked in the past examinations and on the guess papers with most probable questions prepared by our experts. We have found that our materials greatly assist students to achieve success in these entrance examinations.

Looking forward to welcome all aspiring students at INTEL wishing to join us for the Staff Nurse Preparation 2009.

Lastly, please note that INTEL also offers many scholarships to the deserving ones.

Bimala Khadka
Coordinator

After SLC, we did not know who would be able to help us to build our future career. We wanted to be nurses and serve others. Our eyes were full of dreams and our lives were full of hope. Yet, we were confused... we were searching for the right institute which would give shape to our dreams. Luckily, we found INTEL! Due to the daily and weekly exams based on KU, CTEVT, Bir Hospital, and Teaching Hospital model papers at INTEL, we gained the confidence to sit for the KU entrance examination. As expected, we were successful. The INTEL family provided us help and cooperation to better our lives. We thank INTEL for our zeal, courage, and determination.

Once again - Thanks INTEL!!

As a student of Intel Institute, I have achieved success. Having Intel in the heart of success is a part of my educational experience. It helped me realize progress. My study gave me the opportunity to learn about Nursing. It gave me "Foot at the door" and I was very happy when this turned into a permanent position. Today I am the student of nursing now and its all because of Intel!

Thank You Intel !

Full Scholarship (2065)

Being a part of Intel, we really feel glad. Intel helped us a lot to get success in the entrance exam and fulfill our dream of pursuing nursing course. The daily class tests and weekly model tests helped us a lot to upgrade our potentialities as well as the Co-Operative and experienced teachers at Intel Institute are our source of inspiration. We really want to thank Intel Institute from our inner core of heart
